Global Gateway ISDN and Bridging Services

Telstra iVision is focused on providing our customers with great quality service at highly competitive costs through the utilisation of our global gateway ISDN and bridging service.

Now as a Telstra-owned and supported business, iVision is able to leverage the country's largest network bringing unparalleled network solutions direct to you.

With our global partner, Glowpoint, we combine our strengths in Unified Communications to deliver you a scalable, flexible solution, providing exceptional service delivery, technical expertise, knowledge and support throughout the entire video conferencing experience, both here and around the world.

This unique service covers all aspects of ISDN connectivity whether it's for a simple point to point connection or a more complex multi-point. Our experienced and professional MyConference Video scheduling team backed by our national Technical service desk, are committed to delivering a successful global conferencing experience.

Here's how our global gateway and bridging service can benefit you;

IP to ISDN

If you have moved to a private IP Network and still need to access International ISDN, then connecting that site has never been more cost effective. This connection is backed by our service delivery team who will work to ensure that your conference is a success.

Public Rooms

For clients that don't have their own video conferencing facilities and infrastructure, we offer our clients access to our extensive network of Public Room Facilities. We can book and connect you to any of our 4000 public rooms globally via our ISDN gateway service.

Point to Point

Even if you have in-house equipment you can utilize our gateway service to reduce your costs for connection to ISDN locations anywhere in the world. Additionally connecting to an international site via our gateway service simplifies ISDN call routing for increased call stability and quality.

Multi Point

Combine the benefits of all IP/ISDN gateway and public room service offerings into a powerful, cost effective solution. Whether you're running a weekly meeting between multiple local and International sites or coordinating a large scale CEO Event. We have the most cost effective solution for you and your organization.
